PROFESSIONAL SUMMARY

Dynamic, results-oriented Engineering manager with 5+ years of experience bridging technical execution with strategic business growth. Currently driving high-impact process improvement, change management, and process automation initiatives, and successfully generated £15,000+ in less than three months time. Previously pioneered advanced research workflows by deploying Design of experiments, statistical process control, and Lean Six Sigma methodologies to optimize operational efficiency adhering to GMP guidelines and ISO 13485.

WORK EXPERIENCE

Project Manager April 2026 - Present
B2B Growth Hub Southampton, UK

- Automated workflows with cross-functional teams, boosting process efficiency by 30%.
- Cut operational costs by £15k in 3 months using lean process development.
- Built custom data infrastructure to automate R&D lifecycle workflows.
- Redesigned process development SOPs, streamlining stages and increasing engagement by 25%.

Senior Process Engineer Mar 2024 - Feb 2026
Precise Axis Pvt. Ltd. New Delhi, INDIA

- Scaled up and optimized novel manufacturing processes from lab scale to high-volume production.
- Led end-to-end process development, managing PPAP validation and technical transfer to manufacturing.
- Scouted emerging technologies at trade exhibitions to secure strategic technical partnerships.
- Analyzed critical process parameters to drive data-informed optimizations for yield and quality.

Additive Manufacturing Engineer June 2021–May 2023
Irish Manufacturing Research. Mullingar, IRELAND

- Optimized AM workflows, leveraging SLA/SLS/SLM/FDM technologies to reduce production time by 20%.
- Conducted DOE to improve surface finish, successfully achieving sub-2-micron Ra.
- Standardized R&D workflows by authoring engineering SOPs and risk assessment.

Customer Service Advisor, German Sep 2018–July 2019
Concentrix Gurgaon, INDIA

- Leveraged data systems to document interactions, track process requests, and update customer accounts.
- Exceeded performance metrics, consistently surpassing volume, response time, and satisfaction targets.

EDUCATION

MEng. in Mechanical and Manufacturing Engineering, 1.1 Sep 2019 – Oct 2020
Dublin City University Dublin, IRELAND

BTech. in Mechanical Engineering, 1.1 Aug 2013–July 2017
Delhi Technological University, Formerly DCE New Delhi, INDIA

SKILLS

Process Validation (IQ/OQ/PQ), Statistical Process Control (SPC) & DOE, FMEA & Risk Assessment, Additive Manufacturing (SLA/SLS/SLM/FDM), Root Cause Analysis (CAPAs, 5-Whys, DMAIC, 8Ds), Lean Manufacturing (6σ, 5S, Mistake Proofing), Technical Project Management & Leadership, Change Management (MOC), Process Optimization & Scale-Up, Resource Allocation, H&S Compliance, Strategic Technical Partnerships & negotiations, Technology Scouting & Evaluation, Process Automation, CAD & CAE (Ansys/NX/Solidworks).
